

FGX International

FGX International is a leading designer and marketer of non-prescription reading glasses, sunglasses and costume jewelry with a portfolio of established, well-recognized brands including Foster Grant, Magnivision, Anarchy, Angel and Gargoyles. FGXI also has licenses in certain product categories from Ironman, Levi Strauss, Body Glove and C9 by Champion. FGXI has a collection of fashionable, high-quality eyewear and jewelry products. Based in Smithfield, Rhode Island, FGXI has approximately 300 full-time employees. FGXI markets their products across various channels, ranging from well-known mass merchandisers to small outlets. Contract administration is vital to the success of their financial planning.

FGXI was using Cognos Finance and several desktop applications for budgeting and forecasting. Their goal was to implement an Enterprise Planning solution as a comprehensive tool for integrating financial reporting and improving forecasts.

The FGXI solution implemented by QueBIT is fully integrated – consolidating all of the necessary financial reports, while eliminating redundant and incomplete steps in the process. A survey of the FXGI management and finance personnel was very positive after the QueBIT solution was completed. The FXGI management team now has the tools to manage more effectively as a result of this project.

“The level of detail for the plan was beyond industry standard.”
– Nancy Falk, FGXI

“Our implementation delivered exactly what we promised - streamlining the data collection and budget creation process, while providing enhanced tools for forecasting and cashflow management.” Janet Roberts, QueBIT Consultant
